Contents

1 Subject Specification

Overview: Briefly describe the main objectives and goals of your project.

2 Scenario

2.1 Scene & Object Description

Description: Provide details about the scene and objects involved in your project.

2.2 Functionalities

Functionalities: Describe the functionalities your project aims to achieve.

3 Implementation Details

3.1 Functions & Algorithms

Functions & Algorithms: Explain the functions and algorithms used in your project.

3.1.1 Possible Solutions

Solutions: Discuss the possible solutions you considered for implementing the project.

3.1.2 Motivation

Motivation: Explain the motivation behind your chosen solution.

3.2 Graphics Model

Graphics Model: Describe the graphical model used in your project.

3.3 Data Structures

Data Structures: List and explain the data structures used in your project.

3.4 Class Hierarchy

Class Hierarchy: Provide a diagram or description of the class hierarchy in your project.

4 Graphical User Interface Presentation

GUI Presentation: Present the graphical user interface of your project.

5 User Manual

User Manual: Provide instructions on how to use your project.

6 Conclusions

Conclusion:

- **Purpose Fulfillment:** Reflect on whether your project achieved its intended goals.

- **Potential Benefits:** Discuss how your solution can help others.

- **Practical Improvements:** Suggest ways in which the project could be improved.

7 Further Developments

Future Work: Outline potential future developments and enhancements.

8 References

References: List all references and sources you used in your project. Use a proper citation style.
